

Two of these with spin
prove the 3rd cannot.

One proves the sky is flat
one proves the ocean is flat
one shows your not all that

i under stand
u under stand
y stand under ?

true
true
false

water does not lie but
water does lay flat
the curve is undetectable
extend your mind to that

DO YOU MIND ?
if your mind is not your's
you are blind to what is

the sky the sea and a big lie

parrots are not smart
they are trained
if you are trained
you are a parrot
if you think for yourself
you got a chance

trained -
hit by a train to the brains
until no logic in it remains

Air Craft Instrument showing the horizon with the nose and wing depicted set on the ground with a vacuum pump powered, gyroscopic with rigidity on 2 axis and some have a electric motor redundancy. You can now fly straight and level wings with the aircraft nose on the horizon. (whether you can see it or not as in IFR flights)

This is a compass set with a gyro on a ocean going ship that indicates the keel is level and the compass direction that set in port stays constant. Bigger ships have several of these over the keel to verify you are even keel in port. These have a typical bubble level on the top.

This is a artist's lie. This a ball not a model of earth. It does not spin and make water stick to it. It has no resemblance to earth only a basketball. Gravity is a mathematical concept promoted by genius but a mentally ill genius Newton.
